VIGILANT W3000

High-Performance Workstation for Large-Scale Surveillance

The Vigilant W3000 is built for demanding surveillance environments, delivering enterprise-grade computing power for complex security operations. Optimized for intensive video processing and multi-display monitoring, its expandable tower design ensures seamless deployment in large-scale security infrastructures. Partner with Now Micro to reduce risk, save time, increase profits and maximize efficiency with purpose-built solutions that are backed by people who care and powered by innovation.

KEY FEATURES

- Intel® Xeon® processors for elite computing power
- Supports up to 8 displays with optional dual NVIDIA GPUs
- Tower form factor for expansive deployment flexibility
- Now Micro DICE software for remote diagnostics and support
- 3-year global next-business-day, on-site warranty

Every Now Micro solution comes equipped with DICE technology, offering OEMs and systems integrators a powerful suite of tools that streamlines deployment, reduces downtime with remote monitoring and simplifies asset management through a single, intuitive portal.
