

VIGILANT ACS3000

Mission-Critical Server for
Enterprise Access Control Systems

The Vigilant ACS3000 is designed for mission-critical access control deployments where uptime and security cannot be compromised. With powerful Intel® Xeon® Silver processors, large memory capacity and redundant enterprise-class storage, it provides the performance and resilience required for the most demanding environments. Partner with Now Micro to reduce risk, save time, increase profits and maximize efficiency with purpose-built solutions that are backed by people who care and powered by innovation.

KEY FEATURES

Intel® Xeon® Silver processor

Redundant enterprise-class SAS drives with RAID 10 protection

Dual hot-plug redundant power supplies for continuous operation

iDRAC Express with optional Enterprise license

5-year global next-business-day, on-site warranty

Every Now Micro solution comes equipped with DICE technology, offering OEMs and systems integrators a powerful suite of tools that streamlines deployment, reduces downtime with remote monitoring and simplifies asset management through a single, intuitive portal.
